

PRIYANSH RANA

SDE-1 (Full Stack Developer)

Meerut, Uttar Pradesh | 7454059046 | priyanshrana159@gmail.com | www.priyanshrana.in | [in](#) **Linkedin**

Full Stack Developer with 1+ year shipping scalable React, TypeScript, and Node.js applications for government and enterprise clients. Strong in RBAC, REST APIs, multi-tenant architecture

SKILLS

- Languages & Databases: Python, JavaScript, TypeScript, SQL
- Frontend Technologies : React.js, React Native, HTML5, CSS3, Angular
- Backend & Databases Node.js, Express.js, REST APIs, PostgreSQL, MySQL, MongoDB, ClickHouse
- DevOps & Tools: Git, GitHub, Microsoft Azure DevOps, Postman
- Core Subjects: Data Structures & Algorithms, DBMS, System Design

PROFESSIONAL EXPERIENCE

SAI Computers Private Limited

June 2025 - Present

- Built scalable full-stack apps with React.js, TypeScript, Node.js & Express.
- Implemented RBAC, REST APIs, and bilingual UI; collaborated on delivery and issue resolution.
- Designed OCR system architecture with secure offline sync.
- Built pole-survey mobile app (React Native) with full API integration.

PROJECTS

Smriti Analysis - UPPCL, UPCL

April 2026 - Present

- Currently developing SMRITI 3.0, an analytics platform for PVVNL, DVVNL, and UPCL using React, TypeScript, Node.js, and PostgreSQL.
- Implemented secure authentication and RBAC, hardening the platform and improving reliability by ~60% by closing key vulnerabilities.
- Building dashboards, reporting modules, and data visualization solutions.

OCR (TPSODL) - Odisha

Feb 2026 - March 2026

- Designed system architecture for an OCR mobile application, including secure communication, API flows, and offline sync strategy.
- Defined scalable data pipeline using Kafka and multi-storage architecture (MySQL, ClickHouse, Blob).
- Collaborated with cross-functional teams to design data flows, integration strategies, and scalable backend solutions.

DAMRF – Government of Gujarat

June 2025 - Feb 2026

- Developed a multi-level workflow system for APMC digitalization using React.js & TypeScript.
- Implemented role-based access, API integrations, and bilingual UI support.
- Optimized performance and collaborated with backend teams to ensure smooth deployment.

EDUCATION

B.Tech in CS&IT

2021 - 2025

Meerut Institute of Engineering and Technology(AKTU) | Meerut

CGPA : 7.61

Intermediate

2019 - 2020

Meerut Public School | Meerut

Percentage: 83%

ADDITIONAL INFORMATION

Awards/Activities:

- Winner – Trikon 1.0 Hackathon (2024) College Event | Finalist – Hackfest 1.0, MIET Meerut
- Converted internship to full-time role within 2 months based on performance
